christianwu.dev | Sacramento, CA

Technical Skills

Programming | Python 3, JavaScript ES6+, SQL, HTML5, CSS

System Design | DOM manipulation, WebSockets, React, React Hooks, Redux Toolkit

Back-End | Django 4, PostgreSQL, MongoDB, FastAPI, RabbitMQ, Node.js/Express

Front-End | Monoliths, Microservices, Domain-driven design, Message passing, Event sourcing

Application Development Experience

Rankriddler | *Full Stack Developer* | <https://github.com/Chris5613/RankRiddler> 2023

- Implemented a scoring system to track and display users' performance and progress throughout the game that will be displayed on a leaderboard
- Incorporated responsive design principles to ensure the game is accessible and functional across different devices and screen sizes
- Collected and analyzed user feedback to make iterative improvements to the game, enhancing user satisfaction and engagement.

Gamerconnect | *Full Stack Developer* | gitlab.com/gamerconnect/module3-project-gamma 2023

- Improved user experience by creating an intuitive, user-friendly, and visually pleasing front-end with React
- Coordinated a workflow using git feature branches with a team of 4 to produce consistent and efficient code
- Collaborated with a team of developers to brainstorm ideas and deliver a high-quality product.

Professional Experience

Galvanize Inc | *Software Engineering Immersive Resident* 2023-2023

- Actively mentoring and guiding students through a 19-week coding bootcamp on full-stack web development.
- Provided assistance with debugging, and resolving technical issues faced by students during their project development and coding assignments.
- Supported students in designing and implementing full-stack web applications using modern technologies such as React, and databases like MongoDB or PostgreSQL.

Education

Hack Reactor | Advanced Software Engineering Certificate 2022

Kingsborough Community College | A.A.S in Computer Information Systems 2019
